

Company Overview

GSA has met the challenge in providing Personal Protective Equipment (PPE) to hospitals, states, institutions, and big-box retailers nationwide since the onset of the COVID-19 pandemic. Our product portfolio embodies our virus-control strategy, offering medical gloves, surgical masks, a variety of isolation gowns, disinfectant sanitizers and COVID-19 test kits. We also specialize in Janitorial and Sanitation products, with access to over 10,000 skus throughout 20 warehouses nationwide. Leveraging over 30 years of experience in sourcing, manufacturing, and production of goods across an array of industries, we are committed to delivering quality products.

Core Services

- Sourcing
- Production
